Professional Profile

Senior professional with direct experience in export, international sales, market development, negotiation and corporate training. He supports companies, managers and sales teams in preparing and managing international negotiations, building export capabilities and approaching GCC/UAE markets with a practical and field-tested method.

His distinctive value is the combination of seniority, operational export experience, training capability and real business practice: not theoretical training, but experience transformed into tools, method and applicable results.

Core Expertise

- International negotiation and cross-cultural business communication
- Export development, international sales and new market creation
- GCC/UAE market entry, business development and partner approach
- Corporate training for managers, sales teams and export teams
- Market analysis, positioning, pricing, forecast and P/L logic
- Incoterms, logistics, customs basics and operational export processes

Training & Advisory Approach

The approach is practical and interactive: real cases, negotiation scenarios, role play, objection mapping, preparation sheets and operational debrief. The objective is to help participants improve confidence, reading of context, value protection and decision quality in international business conversations.
