PROFILE

I support companies, managers and sales teams as they grow in international markets. My consulting and training draw on experience in international sales, export development, negotiation and market entry in the Gulf region.

My work combines commercial preparation with an understanding of cultural contexts: reading stakeholders and decision processes, building trust, handling objections and agreeing clear next steps.

HOW I SUPPORT BUSINESSES

NEGOTIATION AND TRAINING

Negotiation preparation, cross-cultural communication, listening and objection handling. Classroom, online and in-company programmes using real cases and simulations.

EXPORT AND GCC/UAE MARKETS

Market analysis, business development, partner networks, pricing and positioning. Practical support for companies and export managers.

A METHOD FOR REAL BUSINESS SITUATIONS

Programmes built around specific needs and real situations: context analysis, exercises, role play, feedback and preparation tools. The **Cross-Cultural Negotiation** programme focuses on decision-making, relationships and communication in international settings.

Author and speaker. Co-author with Gabriella Nembo of *Il fascino del dubbio*, also available in English as *The Charm of Doubt*: reflections on communication, perspective and personal growth.
